

# KIWOCLEAN® EL 9100 MC

Extremely efficient cleaning of SMD solder units—  
spray on, wipe off, all done!

LOW-ORDOUR  
& HIGHLY-  
EFFICIENT

## Product benefits

- low-ordour and worker friendly formulation
- highly-efficient
- without a hazard label
- is considered non-hazardous for transportation by road, sea and air

## Water-based and alkaline maintenance cleaner for manual cleaning of:

- reflow ovens
- wave soldering units
- condensation solder systems
- selective solder systems
- solder frames / carriers

This newly developed and widely used product effectively removes colophony, fluxing agents and degassing residue from printed circuit boards without attacking surfaces.

Spray KIWOCLEAN EL 9100 onto the surface and let it react for a short while, then remove with a cleaning tissue. Usually there is no necessity to rinse e.g. with water afterwards.

Cleaning test at KIRRON GmbH & Co KG in Korntal-Münchingen

The excellent product features of KIWOCLEAN EL 9100 have been tested and confirmed by leading manufacturers of soldering furnaces. KIWOCLEAN EL 9100 is supplied in an original box of 12 x 1-litre spray-bottles and two spray nozzles.

Order your own sample now and be amazed at how well this product works. Your contact: [electronics@kiwo.de](mailto:electronics@kiwo.de), Phone +49 6222 578-141

## KIWOCLEAN EL series

High efficiency —  
SMD cleaning technology

### Perfect SMD cleaning

- SMD stencils
- Misprinted PCBs
- Soldering frames
- Condensate traps
- Soldering equipment
- Stencil undersides
- Board cleaners
